

Business for Sale - Orchy & Macquarie Valley Juices

Orchy was the first chilled juice and is an iconic name.

The site is at 67 Kinross Road Thornlands, Qld 4164 and is leased until 31st July 2025.

Currently turnover is around \$12m showing a net profit of about \$900,000 for the last three years.

There are sufficient stocks of Orange to last until December 2024.

This is a big factor in the current climate of Juice shortage.

Through our distributors we supply to Papua New Guinea, Hong Kong, Vanuatu, North and Western Queensland, New South Wales, Victoria, Darwin and Perth.

We also have distribution through Coles, Metcash and Bidfoods.

The plant is modern with recently installed new equipment including:

- Imprestic Labelling Machine
- Atlas Copco Compressor
- 1000Kw Boiler

A second 1000Kw boiler is in good condition having been fitted out with new up to date controls.

We service our sales with one 26/8 Federal Filler and one 24/8 Schlenker filler.

These two fillers are fed from depalletisers and independent labelling machines with Robot palletising.

There is a third filler available 24/8 Schlenker.
